Requirements for the official ceremony

The ceremony is conducted by a registrar and is legally recognized throughout the world (the certificate will bear the apostille stamp recognized through the Hague Convention). Weddings will take place within the grounds of the hotel. The date selected is subject to the registrar's availability and that there is no other wedding being conducted at the hotel on that day.

You will need to provide us with copies of the following applicable documents:

- Birth certificates
 - Valid Passport
 - Divorce certificate if clients have been married before.
 - If either party is a widow/widower, the original death certificate is needed together with the original Marriage Certificate.
 - If either party has changed name proof is required (we recommend by means of a letter signed and stamped by a Notary Public).
 - Request for the wedding has to be made at least 15 days prior to the ceremony.
-
- If any of the documents are not in English or French they will have to be translated into either language. This document will then have to be **stamped and signed by a solicitor** stating that it is a true translation of the original.
 - If either party is under the age of 18 years, a parent must accompany him or her.
 - Certain nationalities require extra formalities after the wedding for it to be considered legal in their home country. For those weddings, a supplement may be charged to cover the additional administrative work. Please enquire about the details.

Please note that all documents must be sent to the hotel per e-mail to maina.marie@banyantree.com at least 15 days prior to the wedding date.

Documents sent within 15 days of the wedding will incur a charge of *Euro 100 Net* to be paid locally.
